

TOCOFERSOLAN 1309573-60-1

<i>Structure</i>	
<i>Name</i>	TOCOFERSOLAN
<i>CAS Number</i>	1309573-60-1
<i>Catalog Number</i>	CF257932
<i>Purity</i>	98%
<i>Appearance</i>	solid
<i>Molecular Formula</i>	C ₃₅ H ₅₈ O ₆
<i>Molecular Weight</i>	574.831
<i>Sample</i>	Available
<i>COA and Spectra</i>	Available upon request
<i>Shelf time</i>	Two years
<i>Packaging</i>	Aluminum foil bag/fluoride bottle/drum
<i>Origin:</i>	China

Usage

Tocophersolan is a synthetic water-soluble version of [vitamin E](#).

Natural forms of vitamin E are fat soluble, but not water-soluble. Tocofersolan is [polyethylene glycol](#) derivative of [\$\alpha\$ -tocopherol](#) that enables water solubility.

Tocofersolan is used as a vitamin E supplement or to treat vitamin E deficiency in individuals who cannot absorb fats due to disease.

Tocofersolan is also used in cosmetics and pharmaceuticals as an [antioxidant](#).
